

In-Home Consulting Session

As I stated earlier, sometimes you just need a little help and encouragement to make that dream come true. This is for anyone who is ready to make those changes, but just need some sound advice so costly mistakes can be avoided. Better to be safe than sorry, as they say.

This is an In-Home Coaching Session focused on you and your goals. We can discuss anything you would like regarding your design plans. I will always give you my honest opinion, and help guide you to the style you love. I like working organically, while getting you outside your comfort zone first, then we can always dial it back if needed. Why hire a designer if not to have creative solutions presented that you haven't thought of before?

We will have a great time coming up with a plan custom tailored for you to get you where you want to go, confidently. If extra time is needed, additional fees will be applied at \$125.00/hr. Sometimes more time is needed than the allotted 2-hour session. This will all depend on how many spaces we are addressing.

I really love helping clients with their projects and getting them on track to a successful design. After 15 years of blood, sweat, and tears I have seen it all. I know how to avoid pitfalls by focusing on designing for the future. This will ensure that proper decisions are made with your best interest at heart. So, if you ready to go, then let's get together and make it happen!

Thank you for your time, and I can't wait to hear from you soon.
